## Branicks reports a solid 1Q 2025 with an early repayment of Euro 115m of the outstanding promissory notes and a signed sales transaction of a logistics object – still Buy and € 7.00 target price

Today, Branicks published the 1Q 2025 report. The reported numbers are in line with our expectations and the firm reaffirmed the full year guidance. Net rental income of the commercial portfolio was at Euro 32.0m compared to Euro 38.5m in last year's period, mainly due to the sales closed in the last year and slightly offset by a like-for-like rental growth of 0.1% (0.5% including the institutional business). Real estate management fees were up from Euro 9.7m to Euro 10.8m. Here, the increase is mainly coming from performance fees, while in last year's period the position only included recurring fees. The share of profit or loss of associates came down from Euro 1.6m to Euro 1.1m. Operating expenses decreased from Euro 15.6m to Euro 13.8m, driven by the successful implementation of the "Performance 2024" program, which should continue to even further improve that position in our opinion. The firm's FFO hiked from Euro 9.0m to now Euro 11.4m. Here one of the main drivers was the improving net interest result, which benefited from the repayments of liabilities.

Looking at the portfolio, assets under management now amount to Euro 11.2bn. In the first quarter of the year, the company signed one sale, which is expected to close in the current quarter. The letting performance was at almost 79k sqm again at a good level. Of that, about 42k sqm were renewals, while the remainder was new lettings in a still challenging market. The vacancy of the commercial portfolio came up from 7.4% at FY 2024 to now 8.3%, but is expected to come back down in the coming quarters to a level of about 7%, once some of the vacant space, where lettings have already been signed, will be occupied.

Regarding the balance sheet, the firm managed to deliver some further improvements in 1Q. About Euro 115m of the outstanding promissory notes that are due for repayment in 2025 were already repaid prematurely, reducing the outstanding amount from Euro 293m to now about Euro 179m. Furthermore, bank debt was repaid and maturing real estate financings were re-financed at favorable conditions. The average interest rate now stands at 2.46%, significantly below the 3.36%-mark one year ago and also an improvement compared to 2.67% at FY 2024. As we expect a further focus on improving the debt side in the coming quarters, we expect the balance sheet picture to further improve over the course of the year as well. As of 1Q 2025, the LTV stood at 61.7% and the adjusted LTV including the IB stood at 58.1%. The NAV per share remained unchanged at € 12.55 since Dec.

**We are satisfied with the numbers and developments of the opening quarter and see the firm on a good way in terms of deleveraging. We continue to believe that the current massive gap between share price and NAV is not justified based on the superior quality of assets and thus confirm our Euro 7.00 target price and also maintain our Buy recommendation.**

Branicks (formerly DIC Asset) is a strong commercial properties player in the German market with two strong and in general more or less equally weighted pillars or businesses, which help for a very complementary income and investment structure.

In the Commercial Portfolio Branicks does on balance sheet investment for their own books, in particular office and logistics properties that offer a stable cash income as well as some value add properties which need more attention to reduce vacancy and increase the intrinsic cash flow in mid-term, in particular by repositioning or revitalization of some assets. This strategy is complemented by an intelligent cycle management to sell some properties at the right time for portfolio optimization and generating additional trading profits. The commercial portfolio has a size of about Euro 2.8bn at present.

In the second pillar, the Institutional Business, the company launches diversified real estate funds for many years, as the DIC Office Balance I was initiated in 2010 and DIC Office Balance II in 2014 and DIC Office Balance III in 2015, all with targeted AuM between Euro 300m and Euro 450m. Branicks also initiated funds outside the office topic, for instance with the DIC Retail Balance I fund, which came in September 2017 with a size of about Euro 250m or the new RLI-GEG Logistics & Light Industrial III fund with a volume of Euro 400m. The institutional business offers a great range of fees for set-up, transactions, asset and property management services for the funds, club deals and individual mandates. In addition to a broad income stream from servicing fees there are lucrative equity returns from the co-investment stakes. The assets under management in the Institutional Business steeply increased by almost 50% in 2019, from Euro 3.9bn to Euro 5.7bn, to Euro 7.6bn in 2020 and again steeply to Euro almost Euro 9.3bn in 2021 and Euro 10.2bn in 2022. At the end of 2023, the AuM in the segment amounted to Euro 9.6bn. With no acquisitions in 2024 and some down-valuations of the portfolio the size of IB went down to Euro 8.8bn. All activities in the field of fund business (third party mandates) have been bundled under the GEG roof. Both pillars, the Commercial Portfolio and the Institutional Business, are serviced from the group's own asset and property management platform, with branches in Frankfurt, Mannheim, Dusseldorf, Cologne, Hamburg, Munich, Berlin, Stuttgart and Neuburg. The institutional business offers a lucrative income stream of management fees as well as transaction-related fees and performance fees. As of April 2024, the firm announced a stronger strategic focus on ESG and Renewables and launched its first Renewable Fund with a target volume of Euro 300m in May 2024.

The FFO I result of 2023 stood at a level of Euro 51.9m and was a bit improved to Euro 52.2m in 2024 despite the still sluggish market conditions and the still quite low transaction volumes in the institutional business segment. The Euro 52.2m FFO result was within Branicks' target range of Euro 40m to Euro 55m. For 2025 Branicks keeps the FFO target range unchanged. The focus remains on a reduction of debt, as financial liabilities could be remarkably reduced in 2024, by 22% from Euro 3.0bn to Euro 2.3bn.
